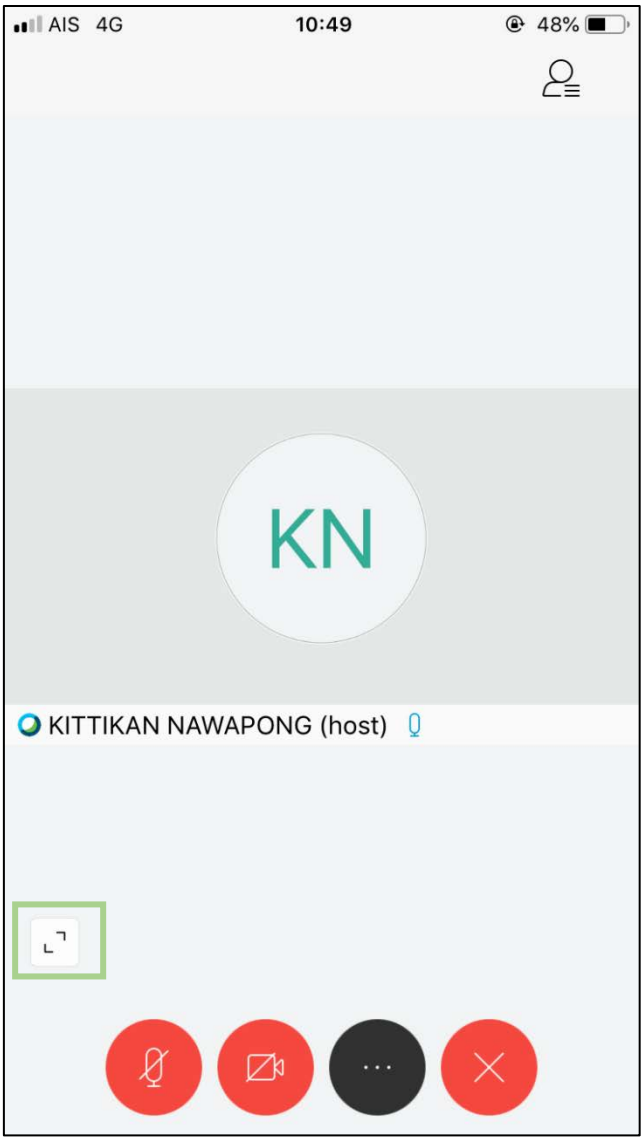
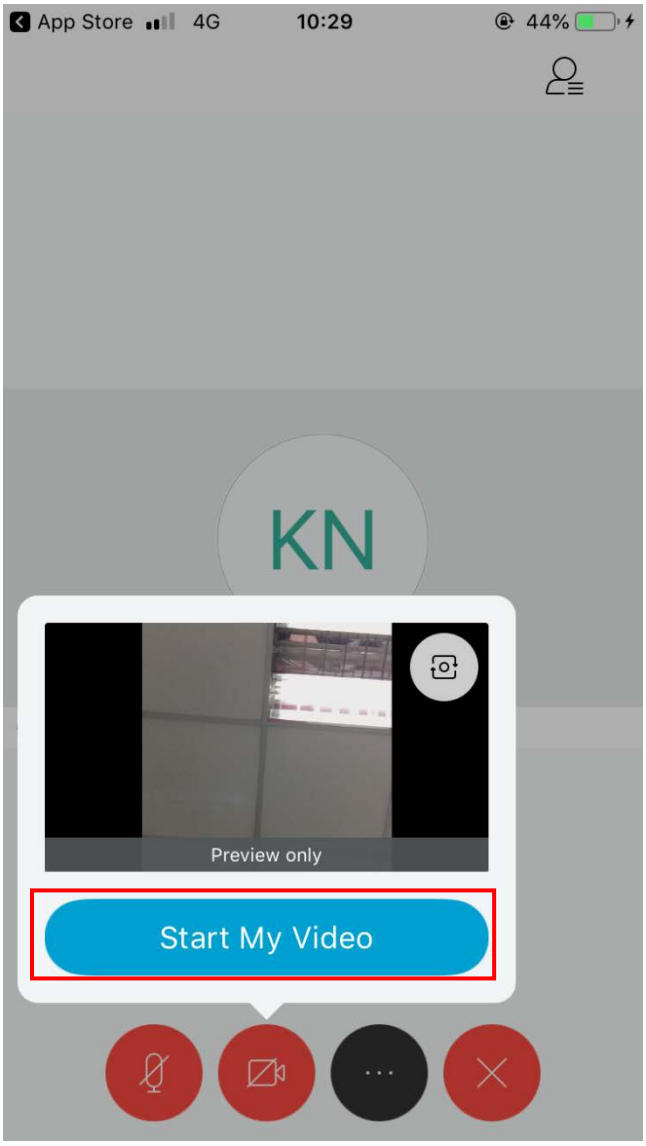
14.If you already join you should get as picture below.



If camera or microphone is **red** – your camera or microphone is off – if you want to turn camera or microphone on you can tab at the button then tap Start my video to turn camera on. If you don't see button you can tab at the button into green square.



If you want to leave the room tab X button and tab Leave Meeting and close the program.

Note – If you already leave the room but want to re-enter to the room you must repeat step 8-13.
