

SEAP graduate students received awards in The 7th HTAsiaLink Conference in Thailand

May 8, 2018

The faculties and students from the SEAP and MUHTA program attended the 7th HTAsiaLink Annual Conference in Chiang Mai during 8-11 May 2018. This conference was co-organised by the Health Intervention and Technology Assessment Program (HITAP) and Mahidol University (MUHTA program) in the theme “Testing Treatments: Strengthening HTA for better healthcare”. Our two Ph.D. students received the prizes for Oral Presentation: 1. Ms. Kankamon Kittrongsiri receiving the second place prize in the area of ‘Health Systems Research’ for the Oral Presentation entitles “Economic evaluation of terlipressin plus albumin for hepatorenal syndrome type I in Thailand” 2. Sermsiri Sangroongruangsri receiving the third place prize in the “Health Systems Research track” for the Oral Presentation entitles “Factors associated achievement of treating with anti-vascular endothelial growth factor drugs according to the treatment guideline”. Both of them received the Royal Golden Jubilee Ph.D. Program (RGJ-Ph.D. program) under supervision of Assoc. Prof. Dr. Usa Chaikledkaew. #SEAP
