

## KM Session for MUPY's Technicians and Scientists

July 22, 2020

On July 22, 2020, MUPY's Quality Development Unit organized a KM session entitled 'How to measure and maintain weighing machines' for MUPY's technicians and scientists who work in the Departments and service centers. This KM event was arranged in room no. 409 during 12 pm - 2 pm, and was delivered by Ms. Panyanuch Wongbunmak, a scientist at the Central Research Unit. There were approximately 20 technicians/scientists attended this session and shared their relevant experiences.
