

MUPY organized an online talk on ‘Open New World: living your life as a pharmacist’

January 28, 2021

On Thursday, January 28, 2021, from 08.00 – 10.00 p.m., the MUPY’s Student Affairs Unit organized an online talk on ‘Open New World: living your life as a pharmacist.’ The talk was broadcasted via the Cisco Webex Meeting program. On this occasion, Ms. Kotchawan Lertchairitthikun, Pharm.D., an alumna of MUPY (Rx41), delivered a speech and shared her experiences on life after graduation, life as a pharmacist, as well as further study abroad to undergraduate pharmacy students. These shared experiences were an opportunity for students to widen their viewpoint on life and prepare them to be future pharmacists. Moreover, this talk also developed digital and cultural skills at an international level and improved the awareness of students as being one of the world’s citizens to happily live with others.
