

Study Visit on Laboratory Safety

February 24, 2021

On Wednesday, February 24, 2021, at 01.00 pm, Lect. Dr. Pagakrong Wanapaisan along with MUPY's supporting staff in the position of scientist arranged a study visit at the Faculty of Tropical Medicine to learn more about a safety practice in a chemical laboratory in accordance with the ESPReL at its Department of Social and Environmental Medicine. The group received an honor from Assoc. Prof. Dr. Suwalee Worakhunpiset talking about ESPReL Check List preparation. After that, they visited its laboratories to learn and share with its technical staff regarding the safety practices in the laboratories. They also had a chance to further discussed their professional experiences in preparing the laboratories for the teaching and learning.
