

Seminar on Herbal Medicines & Molecular Ageing Research

August 1, 2022

On August 1, 2022, from 08.30 a.m. - 12.00 p.m., MUPY's Department of Physiology organized an academic seminar entitled 'Herbal Medicines & Molecular Ageing Research' at Room V401 and live streamed via the Cisco Webex Meetings platform. This hybrid event was attended by more than 40 participants who were MUPY faculty members, graduate students, and scholars from external affiliations. In this regards, Assoc. Prof. Surakit Nathisuwan, the Dean of the Faculty of Pharmacy, along with Asst. Prof. Dr. Worawan Kitphati, Chair of the Physiology Department provided a warm welcome to Prof. Luminita Paraoan, an invited speaker from UK's Institute of Life Course and Medical Sciences, University of Liverpool. She delivered a special lecture in the topic of 'Ageing biology at the intersection of degenerative and proliferative diseases in the eye (and not only)'. After that, Prof. Luminita Paraoan and MUPY's faculty members attended a meeting to establish a research collaboration between the University of Liverpool and the Centre of Biopharmaceutical Science for Healthy Ageing (BSHA), a research center of the Faculty of Pharmacy. Also joined the meeting included Asst. Prof. Dr. Arnatchai Maiuthed, Head of BSHA Center. The seminar aimed to disseminate updated knowledge on ageing and relevant issues as well as to initiate an international research network between the University of Liverpool and BSHA Center in order to produce a qualified publication and related innovation to society. Besides, this activity responded to SDG's 3rd Goal: Ensure healthy lives and promote well-being for all at all ages, 4th Goal: Reduce inequality within and among countries, 10th Goal: Reduce inequality within and among countries, and 17th Goal: Partnership for the Goals to strengthen the means of implementation and revitalize the global partnership for sustainable development.
