

Special Lecture by Guest Speaker from the University of Strathclyde

December 19, 2022

On Monday, December 19, 2022, the Graduate Program in Health Technology Assessment (MUHTA) organized a special lecture entitled “Aversion to health inequalities in healthcare prioritisation: a multiobjective mathematical programming perspective” delivered by Prof. Dr. Alexander David Morton, Professor in Management Science, University of Strathclyde, Glasgow, the United Kingdom. On this occasion, Assoc. Prof. Dr. Usa Chaikledkaew, the Deputy Dean for International and Public Relations, and the Program Director provided a warm welcome and gave an opening speech for this special lecture which was held at Room 606, Rajaratana Building and was attended by more than 20 audiences including academic staff, and graduate students. In addition, this activity responded to SDG’s 4th Goal: Reduce inequality within and among countries, 10th Goal: Reduce inequality within and among countries, and 17th Goal: Partnership for the Goals to strengthen the means of implementation and revitalize the global partnership for sustainable development.
