

MUPY celebrated the graduation of Rx36.

July 03, 2009

MUPY celebrated the graduation of the thirty sixth class of pharmacy students on July 3. This is an event where newly graduates come together to cherish their hardwork through 5 year of pharmacy curriculum at Mahidol. Graduates and faculty members took official picture together in front of the main building of the faculty, a tradition that has been there since the inception of our institution. Fairwell to the graduates and wish them luck on their professional career.
