

Prof. Harald Greger from University of Vienna visited MUPY.

Mar 29, 2010

Prof. Harald Greger, a world expert on medicinal plants and biology from the Chemodiversity Research Group, Department of Systematic and Evolutionary Botany, Faculty of Life Sciences, University of Vienna visited MUPY. This visit was a result of Assoc. Prof. Wandee Gritsanapan's initiative. For this visit, Prof. Greger gave a lecture on Comparative Phytochemistry of *Stemona* species-with the eyes of a biologist on Monday 29 March 2010 at Room 701, Ratcharat building. In addition, Prof. Greger also served as the Co-advisor for thesis examination of Mr. Sumet Kongkiatpaibul, a Doctoral student from the Department of Pharmacognosy on this visit.
