

The 11th Annual Conference on Pharmacology of New Drugs held by MUPY

May 19, 2011

MUPY by the Department of Pharmacology held the 11th Annual Conference on Pharmacology of New Drugs during 19 - 20 May 2011. The focus of this conference is to provide updated information on newly introduced drugs with the emphasis on their pharmacological aspects. In the conference, MUPY also honored to have special lecturers on these following topics: “Stem cell : From basic to clinical application” by Doctor Pattana Teng-umnouy, “Aescin : What’s new for the treatment of chronic venous insufficiency (CVI)?” by Prof. Chumpol Vilatrassamee, and ‘The essential factors in Biosimilars Development Standard’ by Dr. Songpol Deechongkit. □□
