

Prof. Mirek Macka from Australia visited MUPY

June 15, 2011

Prof. Mirek Macka, the specialist in capillary electrophoresis, light emitted diode (LED) and related techniques from University of Tasmania, Australia officially visited MUPY. The purpose of this visit was to be the external examiner in thesis defense of Ms. Nantana Sukthavorn, the PhD student of Faculty of Pharmacy, Mahidol University. He also gave a special lecture entitled Microchip CE and Bioanalyzer which was very attractive. This visit was coordinated by Prof. Leena Suntornsuk
