

MUPY helded public education on the appropriate use and safety of psudoephidrine

Sep 08, 2012

MUPY Foundation, MUPY Alumni Club, and MUPY Student Club helded a public education on the appropriate use and safety of pseudoephedrine and other drugs without any registration fee. In addition, the interesting workshops such as how to make herbal drinks for health and how to make inhaler from Thai medicinal plants were arranged and pharmacists were also available to provide the recommendations to the public.
