

MUPY Dean and staff attended the 2nd Mahidol University - Kitasato University Joint Symposium: Natural Products and Biodiversity at Kitasato Institute for Life Sciences, Kitasato University

Nov 09, 2012

Dean Chuthamanee Suthisisang, Assit. Prof. Usa Chaikledkaew, Assoc. Prof. Noppamas Soonthornchareonnon, Dr. Natthinee Anantachoke, and Mr. Panitch Boonsnongcheep, a PhD student in the Pharmaceutical Botany, were gladly invited to attend and give special lectures at the 2nd Mahidol University - Kitasato University Joint Symposium: Natural Products and Biodiversity on November 2012 at Kitasato Institute for Life Sciences, Kitasato University, Japan. The symposium has been successful owing to the excellent cooperation between staff of Kitasato Institute for Life Sciences, Kitasato University, the Faculty of Pharmacy and the Faculty of Science, Mahidol University. This initiative is an important milestone between the two institutions toward a strong partnership in the advancement of natural products and natural medicine research. In addition, all MUPY staff also visited laboratory units and museum at Kitasato Institute for Life Sciences and received a very warm welcome and hospitality during the visit.
